

You're Invited!

Architectural & Design Workshop

This architectural and commercial workshop will discuss the challenges faced with traditional floor, wall and shower applications. New technologies will be presented to address these issues and improve installations and specifications. Participants will also experience live, hands-on demonstrations involving Schluter educators and managers along with local contractors/installers.

Wednesday, September 28

Puerto Rico

Colegio De Arquitectos Y Paisajistas
225 C. del Parque, San Juan, 00912, Puerto Rico
